

# Regional Haul

A man with a beard and short dark hair, wearing a blue and white plaid shirt, is driving a truck. He is looking out the window at a desert landscape with rolling hills under a clear sky. The interior of the truck, including the steering wheel and side mirror, is visible.

# Stay ahead of the pack.

In regional haul, either you beat the clock or the clock beats you. So when timelines and margins are tight, the Mack Anthem® and Mack® Pinnacle™ are ready to go the distance, mile after punishing mile.

Mack trucks are built for the job at hand and supported by world-class people and technology to keep you on the road and in the black. Here's how:

---

## INTEGRATED POWERTRAINS

Designed to work together for optimum performance, efficiency and reliability, Mack's legendary integrated powertrains set the standard for hauling freight.

---

## GET MORE. SPEND LESS.

Lower your total cost of ownership and increase your productivity with trucks engineered inside and out to be our most efficient ever.

---

## SAFETY, COMFORT AND ERGONOMICS

Making drivers feel at home behind the wheel keeps them safe and productive whether they're out for hours or days.

---

## STATE-OF-THE-ART TECHNOLOGY

From mechanical systems to computer software, Mack's ongoing legacy of innovation allows you to lead, never follow.

---

## BY YOUR SIDE 24/7

Mack® Connect, our uptime and productivity solution, brings technology and service professionals together for round-the-clock support.

Feature	Reliable	Fuel Efficient	Lightweight
MP®7 – 11 liter engine from 325HP to 425HP.	✓	✓	✓
MP®8 – 13 liter engine from 415HP to 505HP.	✓	✓	✓
MP®8-TC – 13 liter engine from 415HP to 445HP.	✓	✓	✓
Mack <i>mDRIVE™</i> and <i>mDRIVE™</i> HD automated manual transmissions in 12-, 13- or 14-speed versions to meet the needs of your application.	✓	✓	✓
Mack legendary integrated powertrain: engines, transmissions and rear axles work together to provide the best fuel economy possible.	✓	✓	
Predictive Cruise learns the topography of your routes, then automatically adjusts speed, torque and gears for maximum fuel efficiency.	✓	✓	
Load Logic improves fuel economy by up to 2% with advanced sensors in the rear suspension that optimize gearing for full and unloaded hauls.	✓	✓	
Aluminum options: Alcoa wheels (standard), fuel tanks, air tanks, bumpers, crossmembers, steps, fifth wheels.	✓	✓	✓
Lightweight options: cab-mounted vertical exhaust, horizontal exhaust, 6x2 tag, 6x2 liftable pusher, super single tires.	✓	✓	✓
Aerodynamic options: roof fairings, adjustable roof trim tab, cab/sleeper side extenders, rubber fairing extensions, chassis fairings, ground effects, eco-flow mudflaps, under-bumper spoiler.	✓	✓	
Standard safety features: Steel cab, Mack Roll Stability Advantage with ABS, ATC and yaw sensors, Bendix® Wingman® Fusion™.	✓		
Safety options: Bendix Wingman® Advanced™, VORAD Side Collision Avoidance, hood and side down mirrors, backup alarms, backup cameras, orange 3-point seat belts, RollTek seats.	✓		

# PULL MORE FREIGHT. TURN MORE PROFIT.

Our trucks built for regional haul combine grit, efficiency and unmatched comfort to help you take on anything.

---

## POWERTRAIN

### Legendary MP® Engines

**MP®7:** The improved 11L MP®7 drops 51 lbs. and saves 2-5% in fuel consumption, continuing its stellar reputation for weight-sensitive applications.

**MP®8:** Saving 2.5% in fuel and 88lb. in weight, the 13L MP®8 workhorse just got a whole lot leaner and meaner for whatever you can throw at it.

**MP®8-TC:** The 13L MP®8-TC racks up 8.1-9% fuel savings with a turbo compounding unit that extracts waste heat and turns it into power.

---

### Fully Integrated

Our engines, transmissions and drive axles are designed from the ground up to work together seamlessly. That means we can maximize performance, efficiency and serviceability for your business.

Pinnacle Day Cab

---

## ADVANCED FUEL SAVINGS

Stay ahead of the competition with aerodynamic design and powertrain advancements that help you get more done while using less fuel.

### **mDRIVE™ Automated Manual Transmission**

The Mack® mDRIVE™ automated manual transmission monitors key driving factors and automatically selects the best gear to optimize fuel economy at the desired speed.

### **ClearTech™ One**

New single unit exhaust aftertreatment system (EATS) reduces emissions and is more compact for increased chassis space and fuel efficiency.

### **Aerodynamic Design**

With a bold look and innovative engineering, Mack Anthem™ displaces air to the sides, as well as over the hood and roof, to cut wind resistance and improve fuel economy by up to 3%. And Pinnacle™ features aerodynamic components that work together to reduce drag and maximize fuel savings.

---

## AXLE CONFIGURATIONS

**Axle Forward:** Pinnacle, our axle-forward configuration, offers a longer wheelbase to optimize weight distribution and maximize payload capacity.

**Axle Back:** Anthem, our axle-back configuration, provides a better turning radius and allows more weight to be transferred to the steer axle. Optimal for dry van, refrigerated trailer and bulk hauling.

Axle Back / Anthem

Axle Forward / Pinnacle

---

## SAFETY

It's the little things that keep your team safe on the road. Like easy-to-read gauges, switches and Mack® Co-Pilot™ displays. A low center of gravity helps keep cabs balanced, while RollTek seats offer drivers advanced protection in the event of a rollover accident. And sculpted, self-cleaning steps and a full-size grab bar make cab entry and exit a breeze.

---

## DRIVER SATISFACTION

Mack takes care of the people who drive your business. Each spacious driver environment is ergonomically designed with a wraparound dash, adjustable seats, tilt/telescopic steering column and suspended, in-line pedals for increased driver comfort. New LED lighting keeps the inside inviting while the air ride suspension cab decreases road shock and vibrations.

---

## CAB OPTIONS

Run the highway your way by choosing models and designs that meet your application and business needs. Available in Day Cab and two Sleeper options.

---

## TOTAL COST OF OWNERSHIP

Minimize your total cost of ownership and maximize return on investment when you add up the benefits of full-service integration, worry-free maintenance and reliable parts. For example, a Mack Anthem® Day Cab can reduce fuel consumption by as much as 10.5% over the previous axle-back model.\* Do the math:

**10.5% OF 30,000 GALLONS =  
3,150 GALLONS SAVED**

**3,150 X \$2.50 / GALLON =  
\$7,875 ANNUAL SAVINGS**

\*Baseline of 30,000 gallons of fuel consumption, per year. Savings based on Mack Anthem® Day Cab bulk haul tractor equipped with an MP®8-TC 445 HP engine, Mack mDRIVE™ automated manual transmission, Mack rear axle, cab roof and side fairings, chassis fairings, plus aerodynamic air dam and mirrors, and ClearTech™ One. Compared to Pinnacle Axle-Back Day Cab with pre-2017 Mack MP®8 445 HP engine.

Day Cab

48-inch Flat Top Sleeper

70-inch Stand Up Sleeper

---

## ALL-NEW INTERIORS

### Instrument Panel

Easy-to-read gauges bring important information to the forefront.

### Mack® Co-Pilot™

5" full-color digital display provides enhanced visibility and simpler navigation without distractions.

### Flat-Bottom Steering Wheel

An industry first, the flat-bottom steering wheel allows more clearance for entry or exit.

### Stand Up Sleeper

Ample space to get comfortable, rest well and stay focused on the road.

### Premium Seating

Mack-exclusive seats provide unmatched comfort.

# With Mack® Connect, it's uptime all the time.

Mack's exclusive uptime and productivity solution, Mack Connect, combines intelligent software, predictive analytics, driver assist technologies and more to help you keep your trucks—and your business—moving forward. See the complete list of Mack Connect services at [MackTrucks.com/MackConnect](http://MackTrucks.com/MackConnect).

**800-866-1177**

**MACK ONECALL®  
SUPPORT LINE**

## CONNECTED SUPPORT

### Over The Air (OTA) Software Updates

Wirelessly updates software without disrupting your schedule, while increasing operational efficiency and uptime. Requires Mack® GuardDog® Connect.

### GuardDog® Connect

Automatically monitors your truck's performance and alerts OneCall® of any maintenance or repair needs. OneCall's 24/7 support leverages Mack® ASIST to give drivers, dealers and Uptime Center staff access to the repair information they need—all while you're still on the road.

### Certified Uptime Centers

Dealers identify quick fixes and put them in the fast lane for completion, while giving larger repairs the attention they need and putting you back on the road faster.

### Preventive Maintenance

Keeps your trucks in top shape by planning a service schedule that matches the usage and miles of your vehicle, so we can repair or replace a component before it impacts your business.

## CONNECTED BUSINESS

### Telogis®

Advanced fleet management and compliance tools that integrate directly with GuardDog® Connect or your own smartphone, tablet or other connected device.

### Omnitracs

Real-time data on your vehicles' locations and how they're being driven so you can spot trends, reduce costs and manage drivers. No additional hardware needed.

### Geotab®

Business intelligence and benchmarking data for older fleets to improve productivity, reduce fuel consumption, enhance driver safety and improve compliance.

## CONNECTED DRIVING

### Mack Predictive Cruise

Proprietary Mack technology that stores hilly terrain in GPS data to optimize engine speed and fuel efficiency on saved routes.

### Bendix® Wingman® Fusion™

Driver assist and safety technology combining radar, camera, brakes and the SafetyDirect® web portal from the leader in collision mitigation. Also available with lane departure warning.

### Roll Stability

The Bendix® ESP® full-stability system helps drivers mitigate rollovers and loss-of-control in situations on wet and dry roadways through advanced sensors and throttle and braking interventions.

### Collision Avoidance

Automatically alerts the driver and, if needed, applies the foundation brakes to mitigate or prevent a potential collision with a forward moving vehicle or stationary object.
